

Dr. Matthew,

Thank you so much for going above & beyond & for always treating my sons like they are a priority.

My husband & I deeply appreciate that you made sure Connor's hernia's were taken care of even after the ER just sent us home.

I am so glad that you were recommended to us & believe me when asked we always tell our friends to come to Pediatrics for you!

Thank you from the bottom of our hearts,
Robert, Miranda, Parker,
